--

A Service Connection Fee is required for each customer. Payment of this fee will be in advance of any installation or construction work by the utility and will include the cost of making the actual connection. This fee will be collected only once per customer and is non-refundable.

When a customer, developer, contractor, and/or builder, known as the applicant, has, during the course of construction, damaged or destroyed property of the utility, the applicant is responsible for compensating the utility company to repair or replace damaged or destroyed components. The utility company may refuse to provide water service to the applicant until it has been compensated for damage or destroyed property.
